

# **SunWize™ Battery Charger**

## **Ideal for . . .**

- **Generators**
- **Cars**
- **Trucks**
- **Boats**
- **Motor Homes**
- **Campers**
- **Airplanes**
- **Motorcycles**

Modern batteries operate in a tough environment with a constant electrical drain. Accessories such as stereos, clocks, cellular phones and security systems can put a constant drain on your battery.

The SunWize™ Battery Charger uses advanced solar energy technology to charge your battery and provide the reliability and dependability you expect from generators, boats or cars by maintaining the charge.

## **Features**

- Easy to use
- Lightweight
- Impact resistant
- Environmentally friendly
- Renewable energy source
- Durable
- Weather resistant
- Built in blocking diode
- Portable
- Silent recharging
- 3 models available

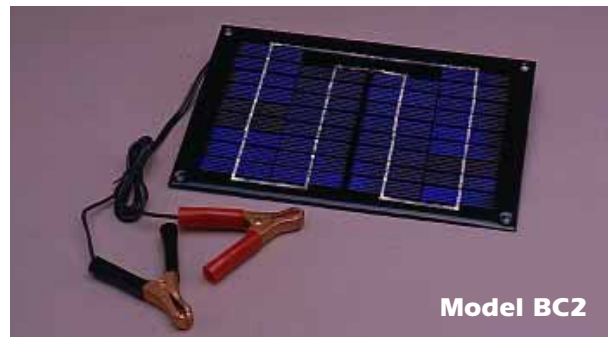

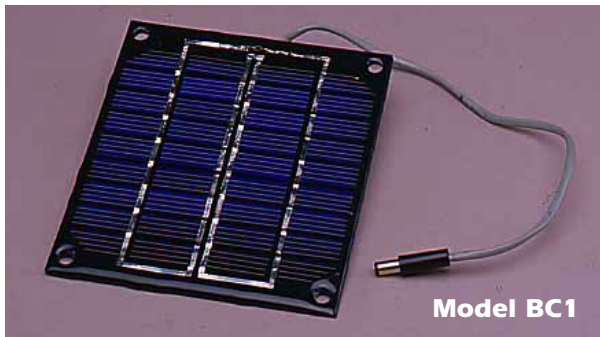

Using photovoltaic ("PV") cells packaged in a structurally and environmentally protective polymer, the SunWize™ Battery Charger is designed for outdoor equipment using 12 volt or 24 volt batteries. (Use "doubler kit" for 24 volt configuration via connectors at back of module.)

Just plug the SunWize™ Battery Charger into your cigarette lighter or connect the clips to your battery terminals, place the charger in the sun and let mother nature do the rest!

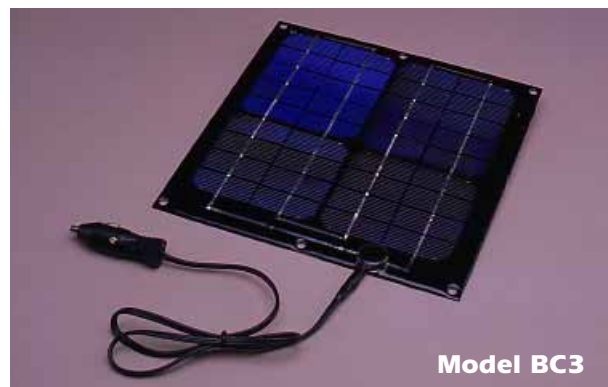

**SunWize™ Battery Chargers are manufactured by SunWize Technologies, Inc., worldwide leaders in photovoltaic power generation solutions. For more information call us at (914) 336-7700. Visit our web site at [www.sunwize.com](http://www.sunwize.com)**
